

We are working hard to improve our playing surface.

- ★ We have installed £33K of drainage
- ★ We have levelled the worst areas but work in progress.
- ★ We are getting on top of the weeds but again work in progress.
- ★ We will take delivery of a compact tractor in March 2017 complete with front bucket, aerator and scarifier to improve the quality of grass.
- ★ We will be applying for a grant to level and install a honeycomb surface from the covered shooting area across the whole range up to 1m in front of the shooting line to provide easier use by those with restricted mobility and extend range use to all year round.

Drainage being installed.

Other Home Ground Improvements

Thanks to our neighbours Elliott's Ltd, during 2017 a permanent road surface is being installed to replace our rocky lane!

We will then add the final surface to our car park (already payed for).

We will continue to improve our temporary clubhouse and toilet facilities and at the appropriate time launch our new clubhouse which already has planning consent!

Facilities

Great facilities getting even better!

The club is so well run that we have received £92K from Sport England to support the development of our ground. Over £30K from the Gloucestershire Environmental Trust to install land drainage. Also many other organisations have and are helping us to develop our ground even further. From car parking to working with the Gloucestershire Bat Group, building bridges, pathways & steps to access our wooded area. We raised the funds through hard work to purchase the ground after we had achieved planning consent and tested the soil to ensure we were not purchasing any surprises.

Many of our excellent indoor facilities are as a result of the community work we continue to do and we ensure we offer a product that generates a healthy demand.

90ft Covered Shooting Area plus toilets & clubhouse.

We are looking after our environment as well!

We have fenced off our target range perimeter and planted 1500 native species of hedging plants and semi-mature trees. We are well on the way to eradicating two areas of Japanese Knot Weed that we inherited and have cleared all the Himalayan Balsam along our stream bank but understand that will be an annual task. Any tree safety work is being done in a sympathetic way to support our six species of bats.

Field Course & Clout Facilities at our Home Ground as well!

Members have worked exceptionally hard spending many hours volunteering to raise funds using tried and tested activities but also some very creative ones! At the point when we were fundraising to buy our ground we raised £50,000 in 12 months! This included generous donations from many of our members.

24 Targets

Great way of learning the skills necessary for field archery and great fun. We also have a set of 3D Targets to inspire the hunter gathers amongst us!

Volunteering Help Essential

With such a wonderful setting and so much to do we hope that everyone can lend a hand to help!

Single Way Clout

We hold training sessions and occasional club competitions. Great variation if you want to try something new.

Fully Inclusive club & good access at all venues !

General Facilities.

At our ground we store general archery equipment, we now have twenty wheeled bosses for easy movement plus many other bosses for competition etc. We also have a good supply of outdoor tables, chairs and benches. Toilets with hot water, clubhouse with fridges, freezers, microwave, kettles and cutlery etc. Also a new security system and soon a dial in view of ground to check weather and activity!

We have amazing access to 5 superb indoor venues!

★ We have use, on an almost daily basis to an excellent range of indoor venues:

Balcarras School Sports Centre

Saturdays & Sundays - September - March.

Store Bosses, netting etc. Classroom available.

GL1 Recreation Centre

Wednesday Evenings - September - March.

Store Bosses, netting etc.

Kingshill School Sports Centre

Friday Evenings - September - March.

Store Bosses, netting etc.

Shurdington Village Hall

Tuesday Evenings - September - March.

We also use Birdlip Village Hall & Cheltenham Leisure @ Recreation Centre as required.
