

# TOGETHER!

## A great place to be!

On the range, field course or just sat in the covered shooting area or clubhouse you will be surrounded by so much wildlife and natural beauty and as a club we have contributed to this spectacle!

Planting trees, removing invasive species, installing bird and bat boxes, clearing the stream, stacking branches after careful tree maintenance are all important contributions we make.

# PROVIDING ACCESS

## Doing what we can!

We are busy putting pathways in, building up areas, protecting paths with . Hacking out steps, putting in hand rails at the same time ensuring minimum disturbance. Clearing areas to encourage particular species. Ensuring dangerous trees are made safe, ensuring no wildlife is disturbed, in particular our 6 species of bats. We are looking to install honeycomb areas to help wheel chair access and year round usage.

# WE ARE A SPORT AND RECREATION CLUB

# WE ARE COMMITTED TO SUPPORTING & PROTECTING OUR LOCAL ENVIRONMENT!

## LOTS TO SEE AT DEER PARK

2 Species

Our own set!
