Archery GB January Challenge

2015

This year there were 1726 scores submitted, up one on last year – still an improvement! Overall the proportions were remarkably similar, with 71% of scores shot by men and 29% by women , exactly the same as last year; this was roughly reflected in each bow style. The ratios by bow style were also virtually identical: 64% recurve, 15% compound, and 11% each in longbow and barebow. 120 clubs submitted scores, a few down on last year. We have also this year shown the age of junior archers when provided; there is no psecial category for them
